

This is a story I have based on the 9th Doctor.

As the TARDIS sped past the last vortex it was in auto pilot Rose was in her quarters asleep the Doctor making her a special breakfast.

Today is Rose Tyler's 23rd Birthday, Jack has just come out of the bathroom Jack spies the Doctor carrying a tray.

"For me Doc you shouldn't have bothered joked Jack, "It's not for you its for Rose it's her birthday" said the Doctor.

Jack raced back into his quarters and picked up a card and a balloon when the Doctor saw the balloon he was amazed that Rose was not a child but a grown woman but Jack probably knew that.

As the doctor tried to look through Rose's bedroom door the balloon got in the way obstructing him.

"Jack get that thing out of the way I want to see if Rose is up yet" said the Doctor.

Jack ignored him, so the Doctor took the balloon off Jack and went to the control room and he put one hand in his pocket and pulled out the sonic screwdriver meanwhile Jack had followed the Doctor.

"Doctor what are doing with my balloon" enquired Jack "Rose is not a little girl she is an adult so I am going to pop your balloon" said the doctor with a wicked grin on his face.

Before Jack could rescue his balloon the Doctor popped it and then he went back to see if Rose had woken up yet.

The Doctor and Jack just got to her door when she was stirring and the Doctor opened Rose's door and went to stand in front of her bed.

"Oh dosen't she look cute in her teddy bear jimjams" said Jack "Quiet" said the Doctor poking Jack in the ribs.

As she opened her eyes she knew her two favourite men were in her room "Morning Doctor, Jack" said Rose with a smile.

And with that they burst into song:

#Happy Birthday to you  
Happy Birthday to you  
Happy Birthday dear Rose  
Happy Birthday to you#

and they sat on her bed and they cuddled each other and then the Doctor went outside Rose's door and picked up the tray and handed it to Rose. "Breakfast in bed" said the Doctor and on the tray he laid a card while Jack laid his card on the tray also.

The Doctor felt a bit guilty about popping Jack's balloon as he gave Rose a keyring and Jack had nothing to give her.

Because Rose noticed Jack's glum expression suddenly the Doctor had an idea he went to confire with Jack.

"Jack I'm awfully sorry about what I did I was selfish I hope you forgive me by the way have you another balloon if not oh dear" said the Doctor.

"Don't worry Doctor it's all under control" reassured Jack and with that he pulled one out of his pocket and soon Rose had a balloon tied to her bedhead.

"Where are we going " asked Rose "It's a suprise" said the Doctor "Let's leave the birthday girl to get ready she's going to have a big day ahead of her" said the Doctor.

Rose soon appeared wearing a purple top, black trousers and black shoes she went to the controls ready to help fly the TARDIS.

"What are you doing Rose you're not flying the TARDIS today you have a day off" said the Doctor with a smile.

With that she gave the Doctor and Jack a peck on the cheek "What's that for" said Jack "For my birthday presents and for having two wonderful men in my life" said Rose the Doctor and Jack blushed.

And soon they landed on Rose's estate Rose, the Doctor and Jack went to her flat.

Inside the living room was awash with colour streamers, balloons, presents and a table laid out with food.

Jackie had just put some ice cream on the table and Mickey blew his last balloon.

"Hi mum, Mickey I'm home" said Rose as the Doctor and Jack followed her into the flat.

Not a sound until she walked into the living room and then Jackie and Mickey jumped out of where they were hiding "SUPRISE" they said in unison.

Rose's eyes filled with tears "Oh mum, Mickey, Doctor, Jack look" as Rose tried to fight back the tears.

"Happy Birthday love" said Jackie "Happy Birthday sweetheart" said Mickey, and the Doctor and Jack stood beside her and both pecked her on the cheeks.

"Happy Birthday Princess" said Jack "Happy Birthday Rose Tyler " said the Doctor.

As she opened her present there was something missing her father's Pete Tyler's present who died in a car accident in 1987.

Her mum Jackie knew instantly "I'm sure your dad would of been proud of his daughter who is 23 years of age" said Jackie as she put a comforting arm around her.

They had a mini celebration while the Doctor was getting another cup of tea he had a brainwave.

As he was about to walk out of the kitchen Jack walked in to get another packet of crisps.

The Doctor leaned on the serving hatch thinking Jack happened to look on his mobile phone at the calender.

He realised there were two birthdays to celebrate and he scuttled back to

the living room and told Mickey, Rose and Jackie that not only was it Rose's birthday but the Doctor's as well because he heard the Doctor mention it on one of their adventures.

Rose had an idea and while the Doctor was not listening she said "Why not go back to Gallifrey Jack could take us there.

And so the whole family headed back into the TARDIS and Jack set the controls while the Doctor went to have a lie down.

Everything went well as soon as the Doctor woke up the TARDIS landed with a bump.

Rose feared she may get a telling off on her birthday but the Doctor was delighted.

"Jack, Rose did you have anything to do with this" asked the Doctor.

"Yes" said Jack and Rose then Rose put her head down in shame but the Doctor lifted her chin up and smiled "Thank you you two" said the Doctor.

"Do you know you have made a 970 year old man happy" said the Doctor gleefully.

But something shiny outside was waiting for them

The Doctor showed Rose, Jack, Jackie and Mickey where he lived, and then on to his old school.

"Rose did you know I used to watch you from afar" said the Doctor " we had a moniter trained on your school." Added the Doctor.

"I didn't know, but I do now" said Rose just then a silver flash whizzed past them.

"It couldn't be could it" said the Doctor and he raced after it.

Rose, Jack and Mickey followed suit Jackie lagging behind, The silvered man ran into the Gallifreyian Television studios.

The Doctor and crew followed until they reached Studio 1 where another tall silver figure was dismantling the set and his colleague was changing the

logo to Cyberstation 1 from Gallifreyian 1.

"Cybermen how could I be so stupid" said the Doctor and before he could move towards them he was ushered into a chair.

And a lady came out wearing a Brown suit the Doctor recognised her straight away.

"Jo" said the Doctor in amazement " Doctor or should I say Doctor John Smith" said Jo.

A familier sound came out Rose and Jack stared at each other in shock.

Was this planned or was this a wild goose chase tune in later

The Doctor stood next to Jo "Jo be a good girl and tell me what the dickins is going on" asked the Doctor politely.

"Have you heard of This Is Your Life, they show it on earth and around every nation" said Jo.

"Don't be impertanent you're not to old to be put over my knee and have your bottom spanked young lady" said the Doctor impaitently.

Suddenly a banner was unfurled behind the Doctor's back with the words THIS IS YOUR LIFE.

"Doctor look behind you" said Rose as the Doctor spun round he was amazed.

The Doctor took it in his stride until he took one exception Jo showed a film of a young Rose Tyler.

"Where did you get that from " asked Jackie "From The Doctor's school" said Jo.

"I don't think I'm gonna like this bit " said Rose one hand behind her back and one hand covering her eyes.

"Aww dose'nt she look sweet in her uniform and dose'nt she look sweet in her grey trousers" cooed Mickey.

"I didn't wear trousers to school" said Rose "You did I was washing your skirts" said Jackie.

"What did happen" said the Doctor "This" said Rose a young Rose Tyler sat outside the Headmasters Office sitting on her hands.

"Mum only if you knew trousers are not allowed for girls in school oh my poor bum" said Rose. "Tyler please do come in" said the headmaster.

And Rose walked into his study and then she spotted her friend Jane grabbing onto a gym bar for dear life and she noticed Jane's navy tracksuit bottoms with a hint of a red mark

"Conradi what do we do when naughty girls come to school wearing trousers" asked the headmaster sternly.

"We get 12 of the best six strokes with your trousers up and six more for wearing said items" said Jane crying.

"Now Rose you are normally a good girl I'll do this once" said the headmaster trying to be kind.

"Rose I hope you have brought a clean hanky as you won't be sitting down on your trouser material comfortably" said Jane looking over her shoulder.

"Jane will you explain the procedure to Rose" said the headmaster and Jane walked gingerly towards Rose.

"Sign the naughty girls book and then get your hanky to your eyes but before hand bend over the headmasters desk.

"Jane you can assist me you hold Rose down while I administer this" said the head.

There was a swishing noise Jane gave Rose's bum a little pat and then the discipline began.

And then it was all over "Rose if I see you touch your rear I will pull down your trousers and underwear and tan your bare posterior" said the head and little sobs emerged. "I'm only nine daddy last did this when I was seven when I jumped into a puddle and splashed daddy's clean car speaking of

which he'll find out and he'll pull down my trousers and underwear and he will see my bum red and he'll make it worse or it will be a grey trouser spanking from mum" said Rose silently.

"We never did used to give you a belting but on this occassion you're right I gave your bottom a wallop and you ran upstairs crying clutching your bum, and your dad did the same when he found out, you could never wear grey trousers again until you were about to leave school until then you avoided it you went to Mr's Miggin's Farm remember in the letter you got it clearley stated girls must wear trousers and you wore navy trousers.

Then when you left you did wear grey trousers and you thought you were going to get the cane again you bent over the headmaster's desk fearig the worst until he said you didn't have to and patted your bum" said Jackie

Rose was clinging onto the gym bars for dear life while sobbing silently into her handkerchief.

As Rose was clinging on to dear life she spotted the cane which gave her the 12 of the best.

Then something far worse if she told her dad she thought bare posture hiding.

Then she was free to go then when the film had finished the Doctor looked at Rose who was sitting in her chair ridgid.

"Rose I can explain"said the Doctor worriedly. "There's no need" said Rose looking daggers at Jo.

A cyberman approached looking menacing

A Cyberman was walking towards the Doctor and in his hand he was brandishing a cane.

He came between Jo and the Doctor "Rose do you remember this" said Jo holding the cane in the air.

Suddenly Jack sprang from his seat and launched at the Cyberman "I'll knock your metal head off you silver freak" said Jack angrily.

Rose got out of her seat and grabbed the cane she then lifted her knee and

broke the cane in half then turned to Jo.

"How could you" said Rose annoyed and slapped Jo across the face by this time Mickey and Jackie had to calm things down.

"Jo didn't I say that Rose and Jack were volatile" said the Doctor as he first went to Jack to stop him making a mess of a Cyberman then to Rose to calm her down.

"Sorry everyone" said Jack and Rose Jo looked at her producer and he gave her reassurance to carry on.

Two Cybermen stood by where Jack and Rose sat Jo kept her composure after being smacked by Rose.

"I knew this was a bad idea" whispered Jack as he leant towards Rose the Doctor knelt on his hunches towards Rose and Jack and asked them what were they were whispering about.

"I was just saying to Rose maybe this wasn't a good time to come here" said Jack.

"Rubbish it's made great TV viewing" said the Doctor "Jack destroying a Cyberman and Rose giving Jo a backhander absolutely marvellous" said the Doctor with a grin.

And with that he then turned and said "Thank you for my red book but the show's now over.

The Cybermen were exterminated as the Doctor, Rose, Mickey and Jackie were about to leave Jo said "Hang on what about me".

"Come along Jo" said the Doctor and they walked back to the TARDIS Jo closed the door.

And on the way back to earth Mickey and Jackie Rose and Jo sat together on the sofa.

"Jo I'm sorry I hit you just seeing that thing freaked me out" said Rose apologising.

"It's ok no need to apologise friends" said Jo reassuring Rose "Yeah" said Rose and gave Jo a hug.

Just then Jack appeared waving what looked like a stick "Jack start running" warned the Doctor as Rose chased Jack around the TARDIS "Ill use that on you Jack Harkness" said Rose angrily.

The End

Another one to add to my collection
